

FORK AND TWO AXIS MILLING HEAD:

These Fork type milling head can be mounted on Rams of Vertical Lathes, Portal machining centers or on Ram type Horizontal boring machines.

The heads are offered in two versions (i.e)

1. Heavy duty spindle driven by the Ram spindle motor itself with max RPM of 2000
2. High speed motorized spindle delivering 15 – 20000 RPM.

FORK AND TWO AXIS MILLING HAED	Description
Spindle Nose	ISO 50
Maximum Size of Cutter	250 MM
Maximum Power	22 - 37 KW
Maximum Torque	1700 NM
Speed	1000 RPM
Angular Adjustment	C axis – $\pm 200^\circ$ A axis – $\pm 110^\circ$
