

**VFW 3 – ANGULAR MILLING HEAD:**

The VFW 3 Milling head finds its application mainly in milling operations performed in holes and on surfaces parallel with main spindle centerline. No resetting of Work piece is required when using the mentioned milling head.

The VFW 3 Milling head is capable of being swivelled to various positions to a scale. The swivel is effected by hand by means of Worm Gear through 0-360° at required position.

<b>VFW3 – ANGULAR MILLING HEAD</b>	<b>Description</b>
<b>Spindle Nose</b>	ISO 50/ISO 60
<b>Maximum Size of Cutter</b>	250 MM
<b>Power</b>	37 - 55 KW
<b>Maximum Torque</b>	2500 NM
<b>Speed</b>	800 RPM
<b>Angular Adjustment</b>	360°
